

Brenden

Brenden is 17. Here's what we would like you to know about him.

His favorite activity:

Swimming. He loves being in the water and spending time exploring the bottom of local lakes. He is also very involved in the Cub Scouts and is loving it.

What he wants in a family:

A family that supports his interest in swimming and spends time swimming with him.

What we want families to know about Brenden:

Brenden is a personable kid who is looking for a family that will support him academically, socially, and emotionally. He can sometimes be hyperactive.

What we are seeking in a family for Brenden:

Brenden needs a family that will:

- Patiently help him transition into their family;
- Follow through with needed orthodontics work;
- Help him be successful at school;
- Support his ongoing therapy; and
- Provide structure, consistency, limits, and close supervision.

We feel that Brenden would be best suited to a two-parent family as an only child or with older siblings.
