

Lulu

Lulu is 16 years old. Here's what she would like you to know about her

Things that I enjoy:

I love to sing! I am going to be singing in a café night performance soon. I love animals of all kinds. I like to read and have lots of books. I don't like yelling and fighting.

Activities I enjoy:

I love to sing and read. I love kids and have volunteered in a child care center before.

What I want in a family:

I am open to a variety of family types. I would be happy to have two parents or a single parent. I am open to having younger or older siblings. I would like a family who is comfortable with me having contact with my biological siblings. I would like a family who keeps me busy and keeps me safe. I like animals and would like pets

What we want families to know about Lulu:

Lulu is a beautiful, articulate girl who truly wants a family. She has had many disappointments in her young life and has had to act as a caretaker to her younger siblings at times. It will take Lulu time to trust that her family will be there for her long term.

What we are seeking in family for Lulu:

We are open to all families for Lulu. It will be important for families with other children to have the time to spend with Lulu to help her bond and feel safe with her family. Lulu would like to go to college to be a teacher or to prepare to open her own childcare center. She will need a family who will support her as she works toward those goals. A family willing to participate in therapy with Lulu as needed would be important.
