

Rylee

Rylee is 16 years old. Here's what she would like you to know about her:

Some of my favorite things:

I love computers, video games, stuffed animals, trees (because they are very pretty), going for walks (sometimes), and sleeping. I also like Anime.

Things I do not like:

There is not much that I dislike. However, I do not like people talking about my birthparents or being excluded from meetings that are about me.

Favorite foods:

I really like chicken, but prefer when it is a whole cooked chicken. I believe it has better flavor when it is cooked whole. I really like cake, all kinds. I also like Jell-O and rice pudding.

What I want in a family:

I want a good, healthy family. Healthy means non- smoking, non-drug using, non- screaming. Loud noises scare me. I am laid back and like it when other people are laid back as well.

What I want families to know about me:

I want families to know all of the above information, as well as the fact that I am a shy person, and I get tired easily. I enjoy playing on computers for long periods of time. I like pretty much everyone.

What we want families to know about Rylee:

- Rylee has experienced trauma in her life. She continues to work on her past in therapy, learning new skills and ways to express her feelings and emotions. Rylee is a bright young woman with a dry sense of humor. A family where Rylee could be the only child would be a good fit. Also, a family that is willing to be part of Rylee's team and provide her with structure and consistency.
