Policy

Documenting Reports of Alleged Child Abuse or Neglect

The division's focus on child safety requires that the social worker gather thorough information from the reporter about:

- the alleged abuse or neglect; and
- the family's circumstances, strengths, family resources and natural supports.

Thorough information allows for an accurate determination about accepting the report and about the immediacy of response. If accepted, it will allow the district supervisor and social worker to plan a child safety intervention in a way that will minimize risk to the child and to the social worker.

If the social worker judges that a child may be in immediate jeopardy, he or she will immediately notify the supervisor.

The social worker will promptly enter all reports of abuse and neglect in the FSDNet intake module. Documentation of concerns about the same incident from different reporters may be appended and screened for acceptance for up to 30 days.

Allegations of Child Abuse or Neglect by Department Employees

If a reporter alleges child abuse or neglect perpetrated by a Department for Children and Families (DCF) employee, the CIES supervisor will immediately notify the Family Services Director of Operations or designee. If accepted under Chapter 49, the Secretary of Agency of Human Services will determine the appropriate unit to conduct the child safety intervention.

Allegations of Child Abuse or Neglect by Vermont State Police Employees

If a reporter alleges child abuse or neglect perpetrated by a Vermont State Police employee, the CIES supervisor shall immediately notify the Family Services Director of Operations or designee.

Screening Reports of Child Maltreatment

In child protective services, we are challenged to promote the safety of children while respecting family integrity and the diversity of family values and lifestyles. The division does not investigate concerns about the child's general condition. There must be a valid allegation that there is harm or risk of harm to the child caused by abuse or neglect as defined by 33 VSA Chapter 49 or a pattern of concerns that suggest the child may be in need of care and supervision as defined in 33 VSA Chapter 51.

 VERMONT DEPARTMENT FOR CHILDREN AND FAMILIES Family Services Policy Manual		<h1>51</h1>
Chapter:	Child Safety Interventions	
Subject:	Screening Reports of Child Abuse and Neglect	Page 3 of 13

The division shall determine whether to accept a report as soon as sufficient information is available to make that determination. Decisions are based on the information provided, regardless of who provided the information and whether their identity is known.

A CIES supervisor makes the initial determination about report acceptance. Reports indicating that a child is in imminent danger will be screened immediately. All other reports will be screened by midnight on the day they are received. If not accepted by the CIES supervisor, a second person¹ will screen the report within 48 hours of the first screen.

If accepted by the second screener, a child safety intervention will commence within 72 hours of the receipt of the report. If the report was accepted on the basis of further information received, the child safety intervention will commence within 72 hours of the receipt of that information. See [Policy 52](#) for commencement requirements.

Gathering More Information

At times, information in the report may be insufficient to justify report acceptance. If the supervisor believes that more relevant information may be available, he or she will assign an intake social worker to gather more information. This may include, in the case of second-hand reports, attempting to contact the original informant or other individuals who may have current and relevant information.

When a report indicates that the family may have had previous child protection involvement, the supervisor will assign an intake worker to attempt to gather more information about that involvement. Examples of involvement may include past investigations or assessments, open protective services cases or custody episodes.

The purpose of gathering more information is to determine whether a report should be accepted and do not represent the commencement of a safety intervention. When a social worker has been assigned to gather more information, the supervisor must establish and document clear tasks and deadlines to be met². Any additional information gathered will be appended to the intake report.

Reports will be available for appending and/or accepting with more information for 30 days. Once accepted, the investigation must be commenced according to the response priority determined by the assigning supervisor.

¹ A Senior Social Worker, Supervisor or District Director. The Director of Operation or the Policy and Operations Manager may also determine that a report is a valid allegation.

² This can be done in either the rationale for non-acceptance or appended to the intake report.

Chapter:	Child Safety Interventions	
Subject:	Screening Reports of Child Abuse and Neglect	Page 4 of 13

Determining Response Priority for Child Safety Interventions

All child safety interventions must be commenced within 72 hours. If multiple CSIs are received on the same day, the response priority is used to determine the order of response.

Jurisdiction Issues

The division shall respond to reports of child abuse or neglect when:

1. The alleged abuse or neglect (including risk of harm) occurred or is occurring in Vermont, or
2. The alleged abuse or neglect occurred out of state and the child is a resident of or is present in Vermont.

When the division has determined that a report is a valid allegation and the child or the alleged perpetrator or both do not live in Vermont, the division may respond in one of the following ways, as most appropriate to the situation. The supervisor who determines that an allegation is valid may decide to:

1. Open an investigation;
2. Open an assessment; or,
3. Notify a child welfare system and/or law enforcement agency in another jurisdiction of the need to respond, including coordinating a joint response with the other jurisdiction when indicated.

Allegations that a resident of Vermont sexually abused a child will always be accepted. The supervisor who determines that an allegation is valid will also always notify the child welfare system and/or law enforcement agency in the relevant other jurisdiction(s) of the allegation. When accepting these reports, if the child does not live in Vermont, the investigation will be assigned to the most appropriate district, based on:

1. Where the alleged perpetrator resides;
2. The law enforcement agency that is investigating; or,
3. If the child is temporarily in Vermont, his or her current location.

Allegations of Maltreatment of Children in Open Cases

When an assigned social worker receives information that alleges abuse or neglect of a child in an open family support case, the social worker will, as a mandated reporter, make a report to CIES.

If accepted, the child safety intervention will be conducted by a social worker other than the assigned social worker in close coordination with the assigned social worker.

Chapter:	Child Safety Interventions	
Subject:	Screening Reports of Child Abuse and Neglect	Page 5 of 13

Criteria for Report Acceptance Under Chapter 49

A report will be accepted for a child safety intervention under the authority of Chapter 49 if the information in the intake report gives the supervisor determines that the child may be an abused or neglected child, defined as:

- “a child whose physical health, psychological growth and development or welfare is harmed or is at substantial risk of harm by the acts or omissions of his or her parent or other person responsible for the child's welfare; or
- a child who is sexually abused or at substantial risk of sexual abuse by any person”; or,
- a child who died as a result of physical abuse (33 V.S.A. §4912(2)(a)).

It is not necessary for all of the components required for substantiation to be present in a report for that report to accepted. The division will assume that any adult residing in the child’s home serves in a parental role unless there is evidence to the contrary.

The following sections provide more specific guidance about accepting reports of certain types of child maltreatment.

1. Allegation is that a person responsible for the child’s welfare caused the child to be abused or neglected, by other than accidental means:

Type of Allegation	Allegation
Physical Abuse	Physical injury or serious physical injury – see Policy 50 definitions. When the sole allegation is that the child has a mark caused by a person responsible for the child’s welfare, but no other injury, the report will not be accepted unless the mark lasted for or appears likely to last for more than twenty-four hours.
Emotional Maltreatment	See Policy 50 definition. The pattern does not have to be of the same behavior for the purpose of accepting the report for investigation.
Neglect	See Policy 50 definition. Neglect causes actual or substantial risk of negative consequences to the child’s health.
Risk of Physical Harm	See Policy 50 definition. Examples of risk of harm include, but are not limited to: <ul style="list-style-type: none"> • DUI with children in the car in circumstances that suggest significant risk or danger of serious harm to the child; • Failure to provide age appropriate care and developmentally appropriate supervision when children are using or have access to firearms; • Corporal punishment of a child under 1 years of age (no injury

Type of Allegation	Allegation
	<p>necessary) OR a child under the age 3 has experienced malicious punishment (with no physical injury resulting);</p> <ul style="list-style-type: none"> • Incapacity, due to a mental or physical illness/condition or developmental disability, of providing age-appropriate supervision, and no other person is available to assist. • The reporter has observed or a professional reports that a parent or caretaker has a current pattern of use of methamphetamine or the child has been exposed to methamphetamine production. • There is significant risk of serious physical harm to a child due to domestic violence in the home. In considering whether a child is at significant risk, the following issues should be considered: <ul style="list-style-type: none"> ○ Past history of substantiation(s) or conviction(s) or reported history of child maltreatment. ○ Criminal history of domestic-violence related crimes. ○ Proximity of the children to the domestic violence as well as the nature of the violence or crime; including when a child physically intervenes in a domestic assault or is forced to participate in a domestic assault. ○ Use of weapons or objects that could cause harm in the presence of children in the context of domestic violence. Issues related to who is the dominant aggressor and whether the person is acting in self-defense will be taken into consideration as part of the case determination. ○ In the context of domestic violence, presence of direct threats (including verbal threats) of serious bodily injury or death to or regarding the child or other children of the family or in the household. <p>The division shall accept a report, regardless of the above issues, when:</p> <ul style="list-style-type: none"> • There is a death of a parent or caretaker as a result of domestic violence and the child was reported to have been in the home or on the property when the incident occurred, regardless of the child's exact location; and/or • A firearm is discharged inside a home when the child(ren) are also in the home regardless of where the child(ren) are physically in the home.

Chapter:	Child Safety Interventions	
Subject:	Screening Reports of Child Abuse and Neglect	Page 7 of 13

Type of Allegation	Allegation
	<p>The division does not intervene in situations in which the sole concern is that parents or caretakers fail to:</p> <ul style="list-style-type: none"> • Install smoke detectors; • Use car seats for young children; • Use seatbelts for children; • Ensure the use of bicycle or motorcycle helmets by children; • Ensure the child receives recommended immunizations; • Ensure the child receives recommended newborn prophylaxis (Vitamin K, newborn hearing screen); or • The only allegation is that a child has witnessed or been exposed to domestic violence; and • Failure to give prescribed medication the failure will not have serious health implications on the part of the child (e.g. ADHD medications).

- Any person is alleged to have sexually abused a child or caused a child to be a significant risk of sexual abuse.

For allegations of Lewd and Lascivious Conduct or Sexual Assault, the report should first be evaluated for elements of force, threat or coercion. If these are not present the screener should also consider whether there is a significant difference in age, size, or development.

Type of Allegation	Allegation
Child Pornography	See Policy 50 definition.
Exploitation	See Policy 50 definition.
Incest	See Policy 50 definition.
Lewd and Lascivious Conduct	See Policy 50 definition.
Luring	See Policy 50 definition.
Obscenity	See Policy 50 definition.
Sex Trafficking of Minors	See Policy 50 definition.
Sexual Assault	See Policy 50 definition.
Voyeurism	See Policy 50 definition.
Risk of Sexual	A registered, convicted, or substantiated sex offender who sexually

Chapter: Child Safety Interventions

Subject: Screening Reports of Child Abuse and Neglect

Page 8 of 13

Type of Allegation	Allegation
Abuse	<p>abused a child or vulnerable adult or person substantiated for sexually abusing a child is residing with or spending unsupervised time with a child. Information known at the time of the intake about the offender's risk level and the caretaker's protectiveness will be considered in the screening process.</p> <p>A referral from an adult alleging he or she was sexually abused as a child will not be considered a valid allegation of sexual abuse of that person. The report may be accepted as an allegation of risk of sexual harm if the alleged perpetrator has current access to children. Information known at the time of the intake about the offender's risk level and the caretaker's protectiveness will be considered in the screening process.</p> <p>If the alleged perpetrator was a child at the time of the past sexual abuse, the supervisor will exercise judgement based on the amount of time that has elapsed, the seriousness of the alleged conduct, and any subsequent history of sexual abuse or offenses by the actor.</p>

Should the division be informed about repeated incidents of such child-to-child sexual abuse and it appears a caretaker has failed to attend to the child's needs; the allegations may be opened under medical neglect or risk of harm, or as a CHINS (B) Assessment.

Criteria for Report Acceptance Under Chapter 51

The division may conduct an assessment under the authority of 33 VSA Chapter 51. The focus of the assessment is on whether a child may be in need of care and supervision (CHINS (B)). The division will conduct an assessment under the following circumstances:

Lack of Parental Capacity	<p>A pattern of concerns, a single incident, history of violent behavior, or concerns about parental capacity that do not meet criteria for acceptance under 33 VSA Chapter 49, but suggest that the child may be without proper parental care or subsistence, medical, or other care necessary for his or her well-being.</p> <p>This may include situations where the division becomes aware of prior child welfare court history, including previous relinquishment or termination of parental rights of another child.</p>
---------------------------	--

Chapter: Child Safety Interventions

Subject: Screening Reports of Child Abuse and Neglect

Page 9 of 13

Concerns of Prenatal Exposure to Substances	<p>A woman is pregnant and either parent or caretaker has a substantial history with DCF. An assessment may begin approximately one month before the due date or sooner if medical findings indicate that the mother may deliver early.</p>
Substance Abuse by Pregnant Women	<p>A physician certifies or the mother admits to use of illegal substances, use of non-prescribed prescription medication, or non-medical use of prescription medication during the last trimester of her pregnancy. When there is an allegation that there is likely to be a serious threat to a child's health or safety due to the mother's substance abuse during pregnancy, intervention before a child's birth may assist the family to remediate the issues and avoid the need for DCF custody after the birth. Therefore, such assessments may begin approximately one month before the due date or sooner if medical findings indicate that the mother may deliver early.</p>
Newborn Infant	<p>A newborn has a positive toxicology screen for illegal substances or prescription medication not prescribed to the patient or administered by a physician; or</p> <p>A newborn has been deemed by a medical professional to have Neonatal Abstinence Syndrome through NAS scoring as the result of maternal use of illegal substances or non-prescribed prescription medication.</p> <p>A newborn has been deemed by a medical professional to have Fetal Alcohol Spectrum Disorder.</p>
Educational Neglect	<p>It is alleged that a parent or person responsible for a child's care knowingly fails to enroll a child in school or to provide education in accordance with 16 V.S.A. § 1121. Through the parent or caretaker's action or inaction, the child regularly fails to attend school. Educational neglect will be considered for children beginning at age six until the completion of the sixth grade, where the expectation is that the parent or caretaker is responsible for getting the child to school and the parent or caretaker's behavior has contributed to the child's lack of attendance. The parent is responsible for the child's attendance at a public school, an approved or recognized independent school, or a home study program for the full number of days for which that school is held, unless the child:</p> <ul style="list-style-type: none"> ○ is mentally or physically unable to attend; or ○ has completed the tenth grade; or ○ is excused by the superintendent or a majority of the school directors; or ○ is enrolled in and attending a postsecondary school which is approved or accredited in Vermont or another state.

 See [Policy 60](#) for information on children and youth who are habitually truant.

 VERMONT DEPARTMENT FOR CHILDREN AND FAMILIES Family Services Policy Manual		<h1>51</h1>
Chapter:	Child Safety Interventions	
Subject:	Screening Reports of Child Abuse and Neglect	Page 10 of 13

Assignment to Investigation or Assessment Response

The division may conduct an investigation of any valid allegation. In making the decision about the whether to conduct an assessment or an investigation, the division shall consider the following factors when determining whether to respond with an investigation or an assessment response:

1. There is reason to believe that a child’s safety will be jeopardized if parental permission cannot be obtained to interview the child.
2. The nature and severity of the abuse and extent of a child’s injury, if any.
3. The alleged perpetrator’s prior history of child abuse or neglect.
4. The chronicity of the abuse.
5. To the extent known by the reporter, the alleged perpetrator’s willingness and capability to accept responsibility for the conduct and engage in a plan of services.
6. Any strengths and formal and informal supports and/or resources that are available or exist within the family and community, including resources and supports for people with disabilities if relevant.

The supervisor who determines that an allegation is valid will determine if the case should be assigned for investigation or assessment.

Mandatory Investigation Track

The division’s initial safety intervention shall be an investigation if it alleges substantial child endangerment, including allegations that:

1. A child has been sexually abused by any adult.
2. A child is at risk of harm for sexual abuse by any adult.
3. The acts or omissions of a person responsible for a child’s welfare resulted in child fatality.
4. A person responsible for a child’s welfare:
 - a. abandoned the child;
 - b. maliciously punished the child;
 - c. physically abused a child under the age of 3, including shaking;
 - d. physically abused a child of any age who is non-verbal or non-ambulatory;
 - e. allowed a child to be exposed to methamphetamine production or pre-production.

Valid allegations involving the presence of multiple injuries should be assigned as an investigation response unless there is information that suggests the injuries occurred as a result of a single incident that did not include the use of malicious punishment and is not otherwise outlined above as requiring investigation response.

 VERMONT DEPARTMENT FOR CHILDREN AND FAMILIES Family Services Policy Manual		<h1>51</h1>
Chapter:	Child Safety Interventions	
Subject:	Screening Reports of Child Abuse and Neglect	Page 11 of 13

Valid allegations of child abuse and neglect within licensed and regulated facilities will be accepted for investigation if the alleged perpetrator is over the age of 10. See Policy 54: Investigating Reports of Child Abuse or Neglect in Regulated Facilities.

Track Assignment for Accepted Reports of Sexual Abuse When Alleged Actor is Under Age 18

Age of Alleged Actor	Type of Child Safety Intervention
Age 5 and younger	CHINS (B) Assessment (usually focusing on actor’s family)
Age 6 to 13	Chapter 49 Assessment
Age 14 and older	Chapter 49 Investigation

Supervisors may assign an accepted report to an investigation track if there are aggravating circumstances, the youth is being charged criminally, or there are a pattern of accepted reports regarding an alleged actor aged 13 and younger.

Notification of Mandated Reporters

CIES shall inform mandated reporters when a report is not accepted for a child safety intervention. CIES shall inform mandated reporters that a report has been accepted for a child safety intervention, the track assignment, and the assigned social worker. If it is in the best interest of the child, non-mandated reporters may also be informed that the report was accepted.

Assignment of Cases with Cross-District Implications

At times, a new report is accepted concerning a family with an open Family Support case who has recently moved to another district. In that case, the new child safety intervention will be assigned to the district of the family’s residence, in order to expedite an assessment of the child’s safety. The districts will then determine if the open case should be transferred as directed in [Policy 211](#).

When there is an open case in a district and child in custody reports abuse while placed out of district (excluding licensed or regulated facilities), the child safety investigation will be assigned to the district where the child’s case originates.

Conflict Investigations

At times, the assignment of a child safety intervention to a particular district may be or appear to be a conflict of interest. If that may the case, the supervisor should contact the Operations Manager to discuss the appropriate assignment of the case to another district.

 VERMONT DEPARTMENT FOR CHILDREN AND FAMILIES Family Services Policy Manual		<h1>51</h1>
Chapter:	Child Safety Interventions	
Subject:	Screening Reports of Child Abuse and Neglect	Page 12 of 13

In some cases, the Director of Operations may assign the Residential Licensing and Special Investigations (RLSI) Unit to conduct the child safety intervention depending upon the nature of conflict.

Appendix I

**Educational Neglect vs. Truancy Acceptance Considerations
For CIES First Read and District Second Read**

CHINS (B) Educational Neglect	CHINS (D) Truancy	N/A
Age 6 – Grade 6	Grade 7 – Age 16	Child under age 6 or over age 16
Child or youth is not enrolled in a public, private, or Agency of Education approved home school program	Youth is enrolled in public or private school, or parents have applied for home school status with Agency of Education and the plan has been rejected	Youth is engaged in approved home school plan
Child has missed 20 or more days of school UNEXCUSED resulting in negative impact on child’s school performance	Youth has missed 20 or more days of school UNEXCUSED resulting in negative impact on child’s school performance	
Parent has contributed to or prevented child or youth from attending school	Youth is capable of getting to school; however, is not attending
