7. Business Expenses - Providing Day Care Meals (Effective 10/1/04)

Recipients providing day care for other children in their own home are entitled to deduct, as a business expense from earned income, the cost of meals and snacks provided to those children. Use the following standard deductions. Inform recipients that if they feel expenses are higher than these standards, the higher amount will be allowed when verified.

Breakfast	\$ 1.04 per day	Dinner only	\$1.92 per day
Lunch only	\$ 1.92 per day	Snacks	\$.57 per day

In cases that have documented non-meal related expenses, do the following:

- a) Manually figure the total monthly meal expense using the higher of the standard deduction table or the actual verified expenses. Convert weekly (bi-weekly) expenses to a monthly figure.
- b) Figure the monthly total for non-meal related expenses.
- c) Add a) to b) and enter the total in the ACTUALS field on the DCIN panel. For these cases the entries in the meals fields will be disregarded and the amount in the ACTUALS field used.

Business Expenses - Providing Room and Board (Effective 10/1/04)

The following table outlines the monthly business expenses allowance for room and board. If the client provides documentation of separate identifiable costs of providing room and/or board that exceed the applicable table amount, allow the higher amount. In no case, however, may the business expense allowed exceed the amount of gross income received from the roomer and boarder.

ACCESS	Code	Type	Group Size					
			1	2	3	4	5	6+
1	Room Only		119	219	314	399	473	568
2	2/3 Board		99	183	262	333	395	474
3	Board Only		149	274	393	499	592	711
4	Room and 2/3 Board		218	402	576	732	868	1042
5	Room and Board		268	493	707	898	1065	1279

If five or more roomer/boarders are in one payment group, the case should be handled FIAT. The RBIN panel allows only four roomer/boarders per panel. Splitting one payment onto two RBIN panels results in an incorrect business expense deduction.

All other tests, such as residency, apply.

Bulletin No. 04-16

P-2590 D1

P-2590 Reference MaterialsD. Food Stamp Allotment Tables1. Current Tables

Monthly allotments for households of up to 10 members are contained in the following tables. Locate the net income (not rounded) on the table for the correct household size. Categorically eligible households of one or two members are eligible for benefits of at least \$10, even if the tables do not show a benefit amount at their net income levels.

NOTE: Benefits can be figured manually for these households as follows:

$$\begin{array}{r} \text{thrifty food plan of household size} \\ - \text{net income x 30\% (rounded up)} \\ = \text{allotment} \end{array}$$

2. Formula for Households of More Than 10 People

To determine the issuance to households of 11 or more members use the following method, illustrated here for a household of 11 with a net monthly income of \$1,282.63:

- a. Multiply the household's net monthly income by 30%:

$$\begin{array}{r} \$1,282.63 \\ \times \quad 30\% \\ \hline \$ 384.79 \\ \$ 385.00 \text{ Round up to the whole dollar.} \end{array}$$

- b. For each member in excess of 10 people, add \$112 to the maximum allotment (thrifty food plan) for 10 people:

$$1 \text{ person} \times \$112 = \$112 + \$1122 = \$1234$$

This is the maximum allotment for the larger household.

- c. Subtract the rounded 30% net income figure (a.) from the new maximum allotment (b.) to get correct allotment.
- $$\begin{array}{r} \$ 1234 \text{ max. allot.} \\ - \quad 385 \text{ net income} \\ \hline \$ 849 \text{ allotment} \end{array}$$

3. Percentage Reduction

When demand for benefits exceeds the supply of funds, almost all households will have their allotments reduced by a certain percentage in order to stretch available benefit dollars. Currently no percentage reduction has been ordered.
