P-2720     State Administered AABD (Regulation Reference: 2740-2759)

"Mandatory" recipients "grandfathered" into the State administered system at the time of conversion to Federally administered SSI/AABD are reviewed annually to assure that financial eligibility continues. Recipients must reapply annually for SSI/AABD as part of the eligibility review process. No new applications are taken for this group. The last payment is discontinued. No new applications are taken for this group. The last "grandfathered" case has now been closed as of 8/81.

AABD (Essential person) is an ongoing State program (Regulations 2750-2759). Payments may supplement SSI/AABD payments which do not cover the needs of an essential person. Payments may also supplement income from other sources which is too high for SSI/AABD benefits but not enough to cover the needs of an essential person.
