

WINTER, 9 Years Old

My favorite things:

I like singing, dancing, and gymnastics. I also like playing on the monkey bars. I'd like to take Kung Fu lessons.

Things I don't like:

I don't like junk food.

Favorite foods:

I love tacos, spaghetti, mac & cheese, hot dogs, carrots, salad, blueberry pie, and most fruit.

What I want in a family:

A family who loves me and is able to spend time with me. Parents who are there for me. A clean bed. A therapy dog or cat. A mom, a dad, and an older sister.

What I want families to know about me:

I am very special, and will be a really great daughter. I am a very kind hearted. I am good at gymnastics and also very good at negotiating.

What we want families to know about Winter:

Winter is very bright. She has a great sense of humor and an amazing imagination. She is a great swimmer, amazing singer, and loves building forts. She needs parents who can set firm boundaries, but who are not rigid. She loves being hugged, especially when she's upset. She would benefit from an active family who can keep her busy outside playing and taking hikes.

She could benefit from having pets in the home. She really enjoys visiting animals at the local animal shelter. She could do well with older children in the home, preferably older teens.

Winter is not yet legally freed for adoption. For that reason, we may only consider your family as a possible placement if you have a valid foster care license in Vermont.
