Foster Parent Reimbursement Schedule

Foster care maintenance payments cover the cost of providing food, clothing, shelter, and daily supervision. The division will reimburse persons providing foster care by the 15th of the month following the month of service. If the 15th of the month occurs on a state or federal holiday, payment will be delayed until the following day.

When a child has run away or is temporarily absent from a foster home or other placement, payment may continue for up to 15 days if the plan is for the child to return to that placement. Foster care payments will end upon the child’s return home or discharge from custody. When a child in custody is living with their own parents or with individuals who were guardians before the child came into DCF custody, the parent or guardian will be financially responsible for all aspects of the child’s care.

Foster Parent Expenses

Bills for items covered by this policy are normally be paid through the Foster Parent Expense Account Form (FS-333). In some instances, expenses will be paid through a vendor authorization process as directed in Family Services Policy 267.

The district director or designee will approve expense accounts. Completed and signed expense account forms should be submitted monthly. Expense account forms submitted more than three months after the expense was incurred will not be honored.

Foster parents may submit expense account reports monthly for the following expenses:
