#### APPENDIX C. FAIR MARKET RENT & RENT REASONABLENESS

(adapted from the Housing Opportunity Grant Program Standards)

The ESG CARES Housing Voucher Project requires that a client's rent may not exceed the **Fair Market Rent** (FMR) established by HUD and must meet HUD's **Rent Reasonableness** standard(24 CFR 982.507). The unit's rent must meet both standards. Local CARES Housing Support Agencies are responsible for completing this process and submitting the form to finalize a CARES Housing Voucher.

### **FAIR MARKET RENT (FMR)**

To meet this standard, an apartment's rent is at or below the current HUD-published FMRs for the particular geographic region.

Fair Market Rent Verification Calculation: How to determine if the rent meet HUD's Standard

- **Step 1**: Find out what utilities, if any, are not included in the rent.
- **Step 2**: Look at the Utility Allowance Schedule. It gives an estimated cost for each utility not included in the rent (ones the tenant is required to pay). <a href="https://www.vsha.org/wp/wp-content/uploads/2020/02/SINGLE-FAMILY-2020.pdf">https://www.vsha.org/wp/wp-content/uploads/2020/02/SINGLE-FAMILY-2020.pdf</a>
- Step 3: Add those not-included utility amounts to the rent the landlord is charging.
- **Step 4:** Compare that total to the HUD FMR **Payment Standard** for the town where the rental unit is located. http://www.huduser.org/portal/datasets/fmr.html

If the total is **not more** than the Payment Standard, then that apartment meets the Fair Market Rent standard and is eligible for rent assistance, <u>if it also meets the housing inspection and the rent is determined to be reasonable.</u>

## **Example - FMR Verification Calculation (not current VT numbers)**

| FMR Payment Standard = | \$ 632 |
|------------------------|--------|
|------------------------|--------|

| A<br>P<br>A<br>R | Actual Rent                    |         | = \$ 500 | List Utilities <b>Not</b> Included in Rent Here                                      |
|------------------|--------------------------------|---------|----------|--|
|                  | <b>Utilities</b> (get from HUD | = \$ 72 |          | Oil heat   |
|                  |                                |         | = \$ 14  | Electric hot water   |
| T                | allowance<br>sheet)            |         | = \$ 4   | Electric cooking   |
| M sheet) E N T   | Sheetj                         |         | = \$ 18  | Electric lights  |
|                  |                                | TOTAL   | \$ 608   | (this apartment is eligible since the total is less than the \$632 Payment Standard) |

Rent for units assisted as part of the CARES Housing Voucher Project must not exceed current HUD-published FMRs for the particular geographic region. Documentation, including the Fair Market Rent data for the participant's unit size and geographic area must be kept.

#### **RENT REASONABLENESS**

HUD's rent reasonableness standard is designed to ensure that rents being paid are reasonable in relation to rents being charged for comparable unassisted units in the same market.

The rent reasonableness standard considers the location, quality, size, type and age of the unit, as well as any amenities, maintenance and utilities to be provided by the owner. Record the unit's rent and description.

Acceptable methods of determination and documentation include but are not limited to:

- A printout of three comparable units' rents with evidence that units share the same features (location, size, quality, etc.).
- Written verification by the property owner or management company, affirming that rent for a
  unit is comparable to current rents charged for similar unassisted units managed by the same
  owner.
- Annual study of rent levels in the community using sources such as:
  - Public aggregate data through the Public Housing Authority or Chamber of Commerce;
     or
  - Real estate advertisements and contacts newspaper/internet ads; bulletin boards;
     property management companies; etc.
