

Savanna, 12 year old

My favorite things:

I like doing some sports. I like basketball, swimming, and gymnastics. I do like to watch tv and movies at night as it calms me. I enjoy board games and puzzles. I like to apple and berry pick. I love pets! I like to fish. I actually really like school. I didn't used to.

Things I do not like:

I a fan of the heat when it's really hot outside. I don't like being yelled at by people. I don't like airplanes because I have never been on one. Bright lights really bother me. It hurts my eyes and triggers me.

Favorite foods:

I like ice cream. I like pizza. I like anything with mayo and ketchup and sometimes just those two things! I like apples. I like hamburgers.

What I want in a family:

I am looking for a family who wants to play with me. A family that will like me no matter what. I want them to understand me. I want to participate in sports. I want them to cheer me on.

What I want families to know about me:

I like hugs from people. I like to joke around. I am very active and like to be outside running around.

What we want families to know about the youth:

Savanna does have a trauma history and looking for a family that is trauma informed. Family that has patience. A family that will listen to her needs. A family that will not give up on her. Family will have to be supportive at all times. Family needs to understand she is an active girl. Likes to be involved in activities indoors and outdoors. This is not a youth who just wants to play video games.
